GUARDED ON ALL SIDES

JOHN D. ROCKEFELLER BEING ENTERTAINED AT ESTATE OF HIS DAUGHTER.

New York, June 30.—Dispatches from Pittsfield, Mass., report that Mrs. E. Parmelee Rockefeller, who is at Oneta farm for the summer, is entertaining her father, John D. Rockefeller, and the estate is under strong guard, presumably to prevent Mr. Rockefeller from being disturbed by process servers.

The dispatches state that the lake front of the property is patrolled by a launch and that a reporter who drove out to the place, which he found guarded on all sides, was informed that he could not approach the house.

Mr. Rockefeller arrived at Oneta farm late Thursday night.

Allowing flies to torture horses and cattle costs money. There's profit lost in the animal's vitality. Use Arizona Fly Chaser. Neither sticky nor gummy and won't blister. Sold in any quantity.

TROUBLE IN CANAL ZONE

ACCOUNTANTS BUSY ON BOOKS IN SEARCH OF FRAUD.

OFFICIAL SHOW UNEASINESS

Despite Taft's Denial, Goethals is Said to Have Requested a Four Months' Furlough—The Latter is Staggered at the Task.

Washington, June 30.—Advice direct from the Isthmus of Panama point to startling disclosures in the near future on the accounts in connection with disbursements. In fact, an investigation has been started to ascertain whether figures have been juggled. A staff of expert accountants is at work on the books.

Of course, the information concerning the state of Isthmian affairs does not come through the always well-filtered official channels. The entire corps of officialdom, from Secretary Taft down, was busy today in the endeavor to discount the reports of the unsatisfactory state of canal business and canal building.

However, the accountants were sent to Panama by the auditing division of the war department, which will assume the work of auditing Panama accounts, succeeding Mr. Benson on his retirement. The accountants, seven in number, sailed for the Canal Zone June 18. They are instructed to make a thorough examination of all the books; to ferret out fraud if it exists and to suggest a better and safer method of keeping track of the disbursements.

As yet specific charges of wrongdoing have not been brought as to any transaction or individual. There is, however, plain evidence of uneasiness and suspicion in official circles.

On his return today from his conference with the president at Oyster Bay, Secretary Taft noted emphatically that applications for leave of absence have been made by Colonel Goethals, or by his assistants. This statement is directly at variance with information of the most reliable character which comes from the Isthmus. In fact, it can still be asserted that Colonel Goethals requested leave of absence. It is clear, however, that he will not obtain a furlough at this time.

It is also true that Colonel Goethals quite recently has admitted that the task confronting him quite staggers him, and that he finds a disorganized staff at hand. The complaint is that many of the subordinates, put in their jobs by the politicians, are indifferent and incompetent to the point of uselessness.

When the task of canal building was put upon the three army engineers, Goethals, Sibert and Gaillard, an understanding was arrived at, whereby only two would remain on the Isthmus at the same time. Each was to have four months' leave a year. The plan was that this should be divided and taken in periods of two months each. Major Sibert has asked for two months' leave. By asking for four months' leave at one time, Lieutenant Colonel Goethals is believed to have seriously irritated his superiors and that this accounts for the heated denials by Secretary Taft.

"It is a tissue of falsehood," said Secretary Taft today, when his attention was called to the reports of dissatisfaction on the part of the administration of the management of affairs under the Isthmian Canal Commission, and of the intention of the officers engaged in that work to resign and return to the United States. The secretary was very emphatic in his declaration that he had not received a single communication from Lieutenant Colonel Goethals showing in any way that he was in any way dissatisfied or desired to end his connection with the work.

"No immediate change is contemplated in the administration of affairs on the Isthmus," continued the sec-

Pains at the waist, back, front, or side, are nearly sure proof of female trouble. Some other signs are headache, pressing down pains, irregular functions, restlessness, cold limbs, nervousness, etc. These pains may be allayed, the system braced and the womanly functions regulated by the use of

Wine of Cardui

NEW YORK DEFENDANT ACQUITTED ON A NEW DEFENSE "PSYCHIC EPILEPSY"

retary, "and there has not been a single kick of any sort. There is no truth in the stories of the army officers waiting for leaving of absence to return to the United States."

FITS ANY CRIME

New York, June 30.—Dr. Elmore E. Elliott has escaped the meshes of the law through an unique plea. He had been arrested for brutally assaulting without provocation a man and his wife on the public highway. "Psychic epilepsy," defined as epilepsy without any external manifestations, was the defense offered by the doctors with success.

Dr. Elliott in his own behalf testified that he had been subject to attacks of psychic epilepsy since childhood and that during his attacks he had no knowledge of his acts or recollection of them upon his recovery. Medical testimony was offered to sustain his plea and the prisoner was discharged.

Lawyers heard the defense and members of the district attorney's staff continued to discuss Dr. Elliott's strange statement long after the physician had left the court. They agreed that its scope was practically limitless and asserted that psychic epilepsy would undoubtedly prove a successful defense even for murder.

"It is the best defense I ever heard, and the best defense in the world," said Assistant District Attorney Turnbull. "No man could be held responsible for any act if it could be shown that he suffered from this strange disease."

INDIAN GRADUATES

FIFTY-SIX BOYS AND GIRLS GRADUATE AT GOVERNMENT SCHOOL AT CHILOCCO.

Guthrie, Okla., June 30.—Demonstrations by the graduates, intelligently showing the benefits of industrial

and domestic courses as taught them in the school, marked the commencement exercises this year at the government school for Indian youth at Chillico. Nothing so interesting has ever before been featured here and the crowds that attended were far larger than any of those in the past. In addition, too, was the staging of "Hiawatha" by the Indian graduates in such a manner as to bring forth the highest praise from those present.

There were fifty-six graduates this year, Indian boys and girls, the majority of them being full-bloods. They had completed the work in the academic, industrial and domestic courses, and as a result they are prepared for professions and trades, well equipped for the schoolroom, the farm or the factory.

The commencement exercises proper were held in Hawthorn Hall, which had never before looked prettier. The handiwork of the Indian students was everywhere. The decorations, electrical effects, furnishings and equipment—all of it had been done by the Indian youth, taught and made skillful within the walls of the institution.

The school orchestra, all skilled Indian musicians, furnished the musical numbers of the program and several of the selections were Indian music obtained and prepared only with the greatest difficulty. The salutatory was by Michael Le Mieux, a Chippewa, who spoke on the advancement of the Indian race. He made the point that in proportion to the time consumed the Indians have progressed farther than the white man.

The demonstrations by the students were in harness making, milk toast-making, bread making, printing, cake making and sewing. A Winnebago youth, Geo. Brown, gave a demonstration of making a tug, being assisted by others in his department, and they made this part of a harness, the graduates explaining the details to the audience each step in its construction.

The Indian students at Chillico are not permitted to spend their summer vacations in idleness. Four special coach loads of them have been taken to Rocky Ford, Colorado, where they will work in the best fields most of the summer. These students, over 200 in number, were in charge of J. E. Shields, former disciplinarian at Chillico.

There would be fun in even going to church if it was a scandal.

SLICK CREEK FREEDMEN

WORKS A SMOOTH TOMBSTONE SCHEME ON INVESTORS.

SAID FAMILY WAS DEAD

Showed the Tombstones Erected in Old Burying Ground. Then Sold Allotments of His Four Children Now a Fugitive.

Tulsa, I. T., June 30.—Jacob Roberts, a Creek freedman with an ingenious head for crooked work, whose home is on Adams creek, four miles northeast of Broken Arrow, is a fugitive from justice, with one of the smoothest frauds ever perpetrated in Indian Territory to his credit.

Roberts, through a deal possible only in Indian Territory, sold the allotment of his four children to northern investors, who are now facing suits of ejectment and may lose the farms for which \$2,000 each was paid.

Roberts worked it in the following wise: At Wagoner, a year ago, he purchased five tombstones, one for his wife and four for his children, which, suitably inscribed, he had set up in an old abandoned Indian graveyard and showed them the tombstones which verified his assertions. The prospective buyers thinking all well, bought the property and took possession. Not for several months did the allottees learn of the old man's deal. When they dug a howl of indignation went up and they immediately made preparations to recover the fraudulently sold property.

Use Kennedy's Laxative Cough Syrup. Contains no opiates. It drives the cold out of the system by gently moving the bowels. Contains Honey and Tar and tastes nearly as good as maple syrup. Children like it. Sold by Hoffman Drug Co.

A woman likes to think her husband could be a bad man if he didn't love her so much.

The Biggest Kind of a Change that Ever Happened to Any Magazine Has Happened This Month to

THE SCRAP BOOK

THE SCRAP BOOK for July is issued in two sections—two complete magazines, each with its own cover and its own table of contents. One of these sections is an ALL-ILLUSTRATED magazine; the other is an ALL-FICTION magazine. Each is a mammoth magazine in itself. The one presents an overwhelming array of human interest articles and illustrations; the other an enormous tonnage of fiction—160 pages of absorbing stories.

Ten years ago I created a new type of magazine—the ALL-FICTION magazine. Now I am creating another distinct type—the ALL-ILLUSTRATED magazine. This is the age of specialization. The conventional magazine, with its smattering of illustrations and its smattering of special articles, doesn't contain enough of any one thing to make it satisfying. The ALL-FICTION magazine and the ALL-ILLUSTRATED magazine, joined together as a unit, strengthen each other, and make something really big and forceful and convincing.

The Only Way to Know a Thing is to Try It

The two-section magazine idea is brand-new to the world. It is not quite new with me, however, as I have given it, at odd times, four or five years of thought. It first came into my mind in response to a desire to couple, in some way, the strength of the all-fiction magazine with the illustrated features of the conventional magazine. It has been a difficult problem to work out. Now that the idea is perfected, I wish to see what there is in it. It looks to me to be very good, but the only way to know a thing is to try it.

Two Magazines for a Quarter—Easy Money

The price of this two-part magazine is twenty-five cents, which is equal to twelve and one-half cents a magazine. Most magazines which were selling at ten cents have been advanced to fifteen cents. THE SCRAP BOOK in two parts means two magazines for twenty-five cents against thirty cents for two fifteen cent magazines.
